

Re-engagement and Interconnectivity

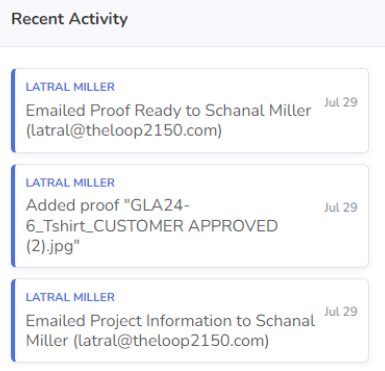

The Loop Branding Boutique values connecting with clients and local communities. We have the pleasure of working with small businesses, black-owned businesses, organizations, and schools with the same objectives. Follow our socials for our Small Business and Educator Shoutouts!

What's new at *The Loop*?

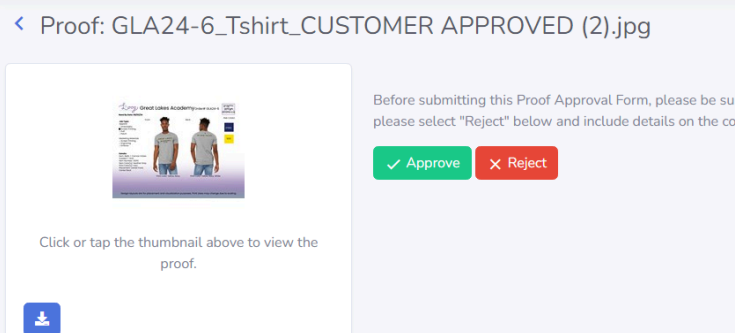

Business is expanding with a new CRM dashboard for project management. With our new system, we can make your order process more streamlined and interactive. You can view the project from start to finish. Here's an overview!

The dashboard will show previous work orders per client with different metrics like updates and statuses. You can also upload your artwork directly into our database.

Once you click on your project, you can see activity logs to see overall progress and receive notifications about proofs.

When you receive your proofs, you can accept, reject, and give feedback directly to our team members.
